Claims 1, 5, 6, 8-11 and 22-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "an efficacy of at least 90%" (claims 1, 6, 22 and 28) and "least 7 days after the administration of the formulation" (claims 1, 6, 22, 28 and 29) is not disclosed in the specification as originally filed..

Applicant's arguments filed April 16, 2010 have been fully considered but they are not persuasive.

The terminology "an efficacy of at least 90%" encompasses an efficacy of 100%. There is no disclosure in the specification as originally filed that the claimed formulation achieves an efficacy of 100%. There is no upper limit in the terminology "for at least 7 days". Therefore, said terminology said terminology encompasses a period of weeks, months, years, etc. There is no disclosure in the specification as originally filed for the claimed formulation to be effective for an indefinite period of time.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
